

Mike Henry & R.E.M.'s Shared Beginnings

The Library of Congress recently anointed R.E.M.'s original single recording of "Radio Free Europe" as a historical recording that helped spawn new musical directions worldwide. In the early 1980s, Paragon's Mike Henry was in Athens and the student GM of WUOG "90.FM," the first station to play "Radio Free Europe" and many other new songs by R.E.M. and other local Athens bands such as Pylon and Love Tractor.

Mike is interviewed in the feature produced by Media Mechanics and distributed by Studio360, as is R.E.M's Mike Mills and producer Mitch Easter.
